

Maximising Student Achievement

Our approach is a personalised one and our broad range of courses and extensive support ensures all students maximise their achievement.

Pastoral Support and Guidance

Strong pastoral care, support and guidance are extremely important in contributing towards our students' success. The Sixth Form team, together with form tutors, play an integral role in supporting students through their time in the Sixth Form.

Higher Education Programme

Our Higher Education programme provides a step-by-step guide to getting to university. Students start the process of researching their options and then finish with making successful applications.

Academic Support and Guidance

We have a vigorous achievement programme that means students are focused and driven to achieve their goals but also are clear about what they need to do to get there.

Specialist Teachers

Teaching staff are highly qualified specialists who are experts in their respective academic areas. They treat students as individuals and give them all the support they need to reach their full potential.

Many of our staff have been examiners and this helps them ensure their students are fully prepared for their exams.

Smaller Teaching Groups

A major selling point is that we try to personalise your experience with us. With this in mind we try to keep our class sizes small. Our students all feel that this allows them to feel fully supported within the classroom and have a more bespoke experience during their time in the Sixth Form.

The Right Courses For You

The Sixth Form has a wide range of courses that offer students a variety of pathways to ensure they get to where they want to go.

This allows us to help students combine their choices and put together a set of courses which meet individual needs and set them up perfectly for the next stage.

Excellent Facilities

The Sixth Form boasts excellent facilities that are tailored to our students' needs. A large common room, 3 work areas and Sixth Form designated classrooms. Sixth Formers take ownership of their space and have been involved in many decisions made about the look and use of their space.

For 2015 onwards additional funding secured has meant that we will be expanding our building to double the size with additional resources.
