

Carshalton High School for Girls

Excellence: everywhere, every day.

YEAR 11

EXAM/REVISION

TIMETABLE 2022

We are now approaching a crucial time in the preparation for your examinations. As a school we have been working really hard to provide you with every opportunity to be fully prepared. This booklet contains important information on timetabled revision sessions and examination dates. We have tried where possible to have revision sessions prior to each exam. The revision sessions are in **yellow** and the exams are in **blue**.

We will be running your normal timetabled lessons until 13th May. You will be expected to be in your lessons unless you have an exam or a revision session. After this date you will be following your revision/exam timetable as your normal lessons will stop. If you are not in a revision session or exam then you are expected to revise at home. There may also be times when staff ask you to attend sessions that they have arranged outside of this revision/exam timetable. Please make sure you arrive at all sessions and the exams on time.

Revision Clashes

As you will see there are a number of exams on the same day, which means there are some clashes with revision sessions. Where this occurs we have tried, where possible, to plan the revision so you can split your time between different sessions (**you will have to decide how much time you spend with each subject**).

Exam Clashes

There are also some clashes with exams, those of you affected by this have already been spoken to by the Exams Officer (some of your exams may have been moved), the timetabling of exams is not done by the school and we apologise to those of you affected by this situation.

Uniform/Behaviour

We expect you to be in full school uniform throughout the revision and exam season as this ensures you have the correct working mindset for the examinations. We expect nothing less than exemplary behaviour at all times when on the school site, any student not meeting this expectation may be asked to leave.

Celebration Assembly

This will be on 30th June and you will also have the opportunity to sign your school shirt, Year Books and take pictures with staff and friends then.

Finally, you must make sure you get plenty of rest at this crucial time and plan your time effectively and we wish you all the best.

If you have any concerns please come and see me – my door is always open.

Mrs P Durrett

If you have a clash of exams you will sit one exam, have a short, supervised, break and then sit the second one directly afterwards. Specific details will be given closer to the time.

Morning exams start at **9:00am** and you need to arrive at **8:45am** to allow time to get seated. Afternoon exams start at **1:45pm** and you have to arrive by **1:30pm**.

End of Exams

Year 12 Induction

4th - 7th July

Leavers' Celebration

30th June

Study Tips

Give yourself enough time to study

Don't leave it until the last minute. Set out a timetable for your study. Write down how many exams you have and the days on which you have to sit them. Then organise your study accordingly.

Organise your study space

Make sure you have enough space to spread your textbooks and notes out. Try and get rid of all distractions, and make sure you feel as comfortable and able to focus as possible. Think about what works for you and take the time to get it right.

Use flash cards, mind maps, self-quizzing

Practising lots of retrieval of knowledge in small chunks at a time will help with your memory. Little and often and mix it up with different topics and subjects. Add pictures to mind maps (dual code) to aid memory.

Practise on old exams

One of the most effective ways to prepare for exams is to practise taking past versions. This helps you get used to the format of the questions, and it can also be good practice for making sure you spend the right amount of time on each section.

Explain your answers to others

Parents and little brothers and sisters don't have to be annoying around exam time! Use them to your advantage. Explain an answer to a question to them. That will help you to get it clear in your head, and also to highlight any areas where you need more work.

Organise study groups with friends

Get together with friends for a study session. You may have questions that they have the answers to and vice versa. Explain your points out loud to others.

Take regular breaks

While you may think it's best to study for as many hours as possible, this can work against you. If you were training for a marathon you wouldn't try and run 24 hours a day! Studies have shown that for long-term retention of knowledge, taking regular breaks really helps.

Snack on 'brain food'

Keep away from junk food! Keep your body and brain well-fuelled by choosing nutritious foods that have been proven to aid concentration and memory, such as fish, nuts, seeds, yogurt and blueberries. The same applies on exam day - eat a good meal before the test, based on foods that will provide a slow release of energy throughout. Sugar may seem appealing, but it won't help when your energy levels crash an hour later.

Plan your exam day

Make sure you get everything ready well in advance of the exam, don't leave it to the day before to suddenly realise you don't know what you're supposed to bring or that you have not got the required equipment.

Drink plenty of water

Being well hydrated is essential for your brain to work at its best. Make sure you keep drinking plenty of water throughout your revision, and also on the exam day.

Exam Tips

Make sure you bring a **black pen**, pencil and rubber and any other required equipment with you.

Have your **candidate number** with you.

Remember to **write your name** on the exam paper. You would not believe how many people have forgotten to do it!

Write **as neatly as you can**, make it easy for the marker to understand what you have written.

If there are people around who are panicking, avoid them. They are not doing you any favours!

Go to the toilet **before the exam starts**. Exams can be quite long and there is no time to waste.

Read all the questions carefully before starting and quickly plan how much time to allocate to each.

Start answering the questions that you feel most confident about. There is **no need to answer the questions in order**.

Don't spend more time than you planned on a section/question, you might run out of time to answer other questions and gain those extra marks! Leave any questions that you are unsure about for the end.

Don't be afraid to **ask the invigilator** if you are not clear on a question.

Use every minute of the exam and if you have time left, read over your work before handing in your paper.

Stay calm, you have done your revision and have nothing to fear!

Carshalton High School for Girls

Excellence: everywhere, every day.

If you're not willing to learn,
no one can help you.

If you're determined to learn,
no one can stop you.
