

June 2017

Dear Parent(s)/ Carer(s)

Re: Learning Skills Days 28th June- 30th June-: Year 7

From Wednesday 28th June to Friday 30th June the school timetable will be suspended and students will be taught in department areas for whole days. Students will work on deep learning activities and develop aspects of the PiXL Edge programme of leadership, organisation, resilience, initiative and communication. Further details of this programme can be found at www.pixl.org.uk/edge

The programme for Year 7 will be as follows:

Wednesday 28th June: 'Conservation' with the Science department. Some students will visit the Natural History Museum in Kensington. Students remaining on site will research endangered animals and create environments for wildlife.

Thursday 29th June: 'One day fashion show' with the MFL and Media departments. Students will research fashion and culture from across the world and will then design and create costumes made out of newspaper. It would be very helpful if your daughter could bring a newspaper to use on this day.

Friday 30th June: 'Careers' with the Vocational department. Some students will visit 'Kidzania' in Shepherd's Bush. Students remaining on site will research and make presentations on careers.

The timings of the school day will remain unaltered although return times from the trips may vary. Students need to come equipped for school, register as normal in the morning and will be expected to wear full school uniform as usual.

Students will engage in discussions in Tutor Time to promote reflection on their learning and evaluation of their learning experiences.

Yours sincerely,

Mr Sambrook
Assistant Headteacher
