

14/02/2019

Dear Parents/Carers

After careful analysis of target grades combined with a review of current assessment data, we have made the decision to change some students' Science sets. These changes will allow lessons to be more tailored to the needs of individuals and incorporate higher levels of challenge. If your daughter is affected by this she will be informed before half term. These changes will be effective from Tuesday 26<sup>th</sup> February.

All students studying Combined Science are following the same route through the units so content will not be missed by changing sets. The set a student is taught in does not determine the tier of entry for GCSE.

If you wish to contact me to discuss this further please do so via the email address below.

Yours faithfully

**Mrs H McCready**  
**Director of Science**
